Meeting Adjourned at 7:38 pm

Teresa Willson, IT Director

TO: Capital Improvements Committee

FROM: Roger Stevens
Public Works Director

SUBJECT: East 76th Street North and US 169 Interchange Improvements

DATE: July 23, 2021

BACKGROUND:

The East 76th Street North and US 169 Interchange is a heavily used roadway that conveys residential and commercial traffic through the area, as well as commuter traffic to and from Tulsa. Currently, the East 76th Street North corridor conveys approximately 12,500 vehicles per day.

In 2014, Oklahoma Department of Transportation (ODOT) included the East 76th Street North and US 169 Bridge/Interchange Improvements in their 8-year plan. In 2019, ODOT commenced with the engineering design and utility relocations followed soon after. In 2020, City staff met with ODOT staff to discuss the scope of the work as well as communicate the needed improvements on East 76th Street North within ODOT right-of-way. In February 2021, ODOT agreed to include some additional improvements as long as the City provided the necessary funding.

ADDITIONAL SCOPE OF WORK:

The proposed additional scope of work would include traffic signal, signage, service road access improvements, stormwater bridge expansion, and bridge art work. The estimated project cost is \$400,000.00.

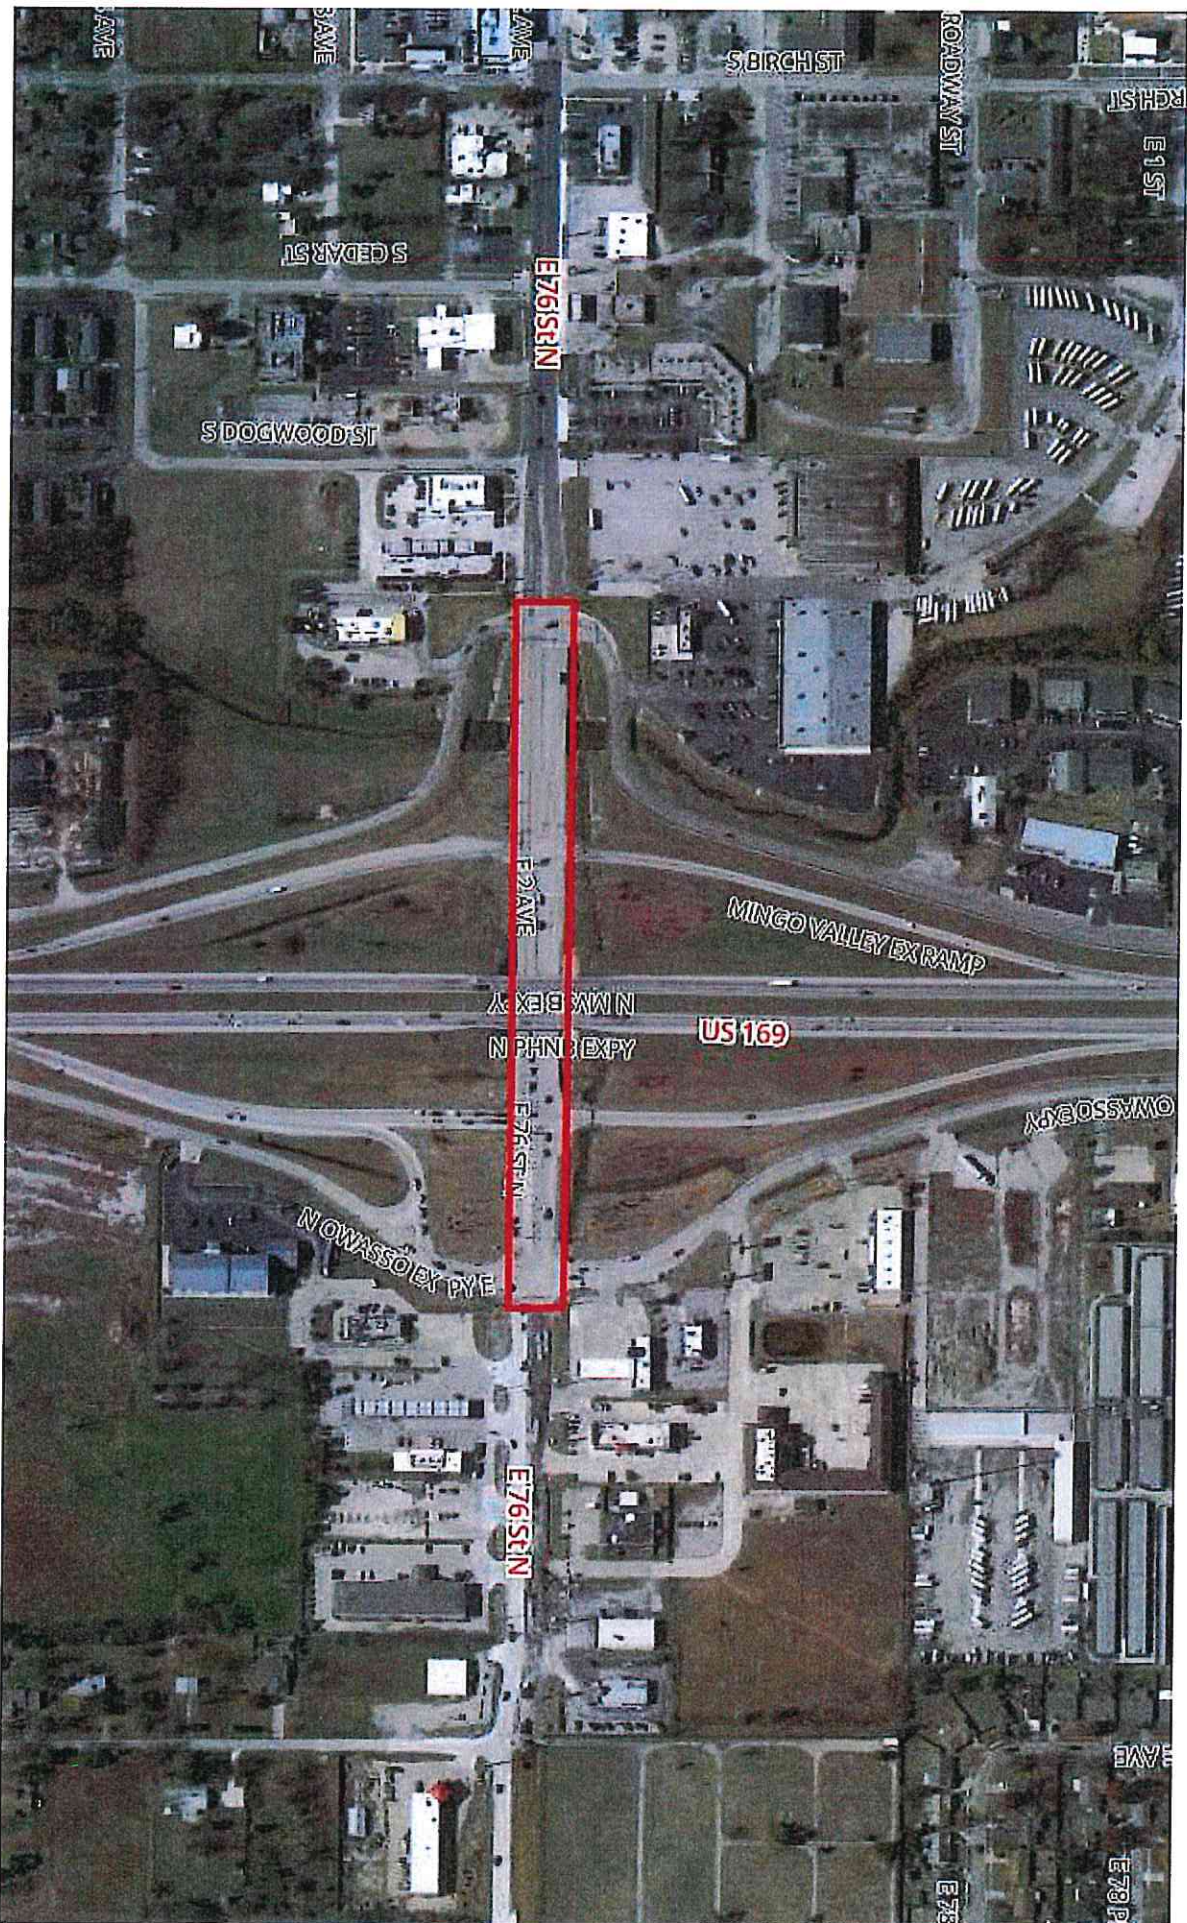

RECOMMENDATION:

Staff requests approval to submit a recommendation to the Owasso City Council to amend the Capital Improvement Project List to include East 76th Street North and US 169 Interchange Improvements
